PROFILE

Aisha Mensah is a systems administrator with seven years of experience running Windows infrastructure for healthcare and logistics organisations. She is known for calm incident handling and for automating routine work with PowerShell.

EXPERIENCE

Senior Systems Administrator - Peachtree Regional Health, Atlanta, GA (Mar 2021 - Present)

- Administers 140 Windows Server 2019/2022 hosts and Active Directory for 2,300 users across 6 sites.
- Led the migration of 85 workloads from ageing Hyper-V hosts to a VMware vSphere 8 cluster with zero unplanned downtime.
- Designed Group Policy baselines and LAPS rollout that closed 40 audit findings.
- Escalation point for a 7-person service desk; wrote the runbooks the team uses for tier-2 issues.

Systems Administrator - Southline Freight, Marietta, GA (Jun 2017 - Feb 2021)

- Ran DNS, DHCP, VLANs and site-to-site VPNs for 3 warehouses and 400 users.
- Moved email to Exchange Online and rolled out Microsoft Teams to 400 staff.
- Automated onboarding and offboarding with PowerShell, cutting account setup from 2 hours to 10 minutes.
