SUMMARY

Network engineer with 4 years of experience in campus and branch networking. Mr. Kowalski holds a CCNA and has supported Windows desktops and servers, but his virtualization experience is limited to a lab environment.

EXPERIENCE

Network Engineer - Lakeshore Credit Union, Chicago, IL (Aug 2022 - Present)

- Maintains Cisco Catalyst switching, VLANs and OSPF routing for 22 branches.
- Replaced the branch VPN mesh with SD-WAN, improving uptime to 99.97%.
- Handles tier-2 desktop and Windows Server tickets when the service desk escalates.

IT Support Technician - Midway Community College, Chicago, IL (Jan 2021 - Jul 2022)

- Supported 600 staff and students with hardware, software and Wi-Fi issues.
- Reset accounts and managed security groups in Active Directory.

EDUCATION

B.S. Computer Networking, Great Lakes Institute of Technology - 2016-2020

SKILLS

Cisco IOS, VLANs, OSPF, BGP basics, SD-WAN, Wireshark, Windows 10/11, Active Directory, Python for network automation

CERTIFICATIONS

Cisco CCNA (2021)

CompTIA Network+ (2020)

PROJECTS

Home virtualization lab

Built a Proxmox lab with a pfSense firewall and a Windows Server domain to practise server administration.
